The 5 categories

MARMITEK®

We have 5 product categories that enable you to create more possibilities with your existing and new equipment. Via an app, wireless or wired, in your living room or loft, analogue or digital; a total package suitable for your situation and circumstances. Our solutions are useful and they help to keep your interior tidy by enabling you to hide equipment and cables from sight.

Smart me

Our Smart me concept with Wi-Fi products enables consumers to remotely control electronic devices or create light scenes via an app. It's plug & play!

Connect

There is a connection shortage, the input and output of 2 devices do not fit or there is a need for fewer cables in sight: our products connect all equipment with each other.

Audio

Wireless solutions for connecting TV, hi-fi installation, speakers or headphones with each other. Music, everywhere in and around your house.

Operate

Control equipment in closed TV furniture or in another room with a remote control or smartphone. Our range of infrared extenders offers a solution in every situation.

TV & video

Solutions to connect a TV screen or beamer wirelessly with equipment such as a decoder or Blu-ray player. Ideal if a connection with (HDMI) cable is not desirable or possible.

We also have a wide range of HDMI extenders over network cable (UTP cable) available.
